

Clickfree Introduces New 1.5 TB and 2 TB Capacity Automatic Backup Drives Designed for Digital Media and SoHo Users

Storage Appliance Corp. delivers the perfect solution to consumers who need to backup large amounts of critical data.

TORONTO – August 5, 2009 – Storage Appliance Corp., developers of Clickfree Automatic Backup, today announces two new high capacity backup solutions; the HD1535 and the HD2035. These large capacity solutions are the latest addition to Clickfree's award winning lineup of popular, technology friendly backup solutions designed to provide totally automatic high-capacity storage.

The new Clickfree lineup turns the once-complex task of backing up rich digital content such as digital SLR photography, HD video and large office documents into a completely automatic function. High capacity backup needs can now be met effortlessly. Just connect the device - it automatically begins backing up your computer. It's that easy!

The Pomegranate Red HD1535 and HD2035 models provide customers with additional choices in capacity. The HD1532 offers an abundant 1.5TB of storage and the HD2032 offers an enormous 2TB of storage space! The drives will retail for \$269.99 and \$349.99 respectively.

In addition to these new product releases, Clickfree also announces reduced pricing just in time for back to school on all existing product. Available now at www.clickfree.com.

About Storage Appliance Corporation

Storage Appliance Corporation develops intelligent, Clickfree™ personal storage solutions specifically designed for ease of use. Clickfree™ backup is the world's first technology that performs backup by simply connecting the storage device to the PC, without having to set up or configure software. See www.clickfree.com for additional information.
